---

Doka Formwork Malaysia Sdn Bhd is committed to take every reasonable effort to eliminate the hazards that cause accidents and injuries.

All employees and those related to our business have the right to work in a safe and healthy environment. We are committed to the National Occupational Safety & Health regulations and laws.

The leadership team is committed to ensuring the safety, health and welfare of our employees and anybody else who may be affected by our organizations operations. We are dedicated to continually improve Occupational Safety and Health (OSH) by implementing and improving the Occupational Safety and Health Management System (OSHMS).

It is the responsibility of the leadership team to develop, implement and review Doka's OSH policy in collaboration with the employees.

It is the responsibility of employees to understand the policy and their responsibilities to support Doka in achieving the OSH policy it has implemented.

The occupational safety and health of all employees as well as any other individuals and visitors is important. All employees, subcontractors, leadership and visitors must take responsibility for their own OSH by performing their duties in a safe manner for themselves and others around them. They must also assist the organisation in reporting risks to the safety and health committee and offer recommendations to mitigate these risks.

Thank you
