

Bring Doka Safety Solutions to your Next Safety Meeting!

Construction Safety Week 2025, May 5–9

Every year, construction companies host Safety Week events to refocus and re-energize efforts to eliminate all incidents on job sites. Doka is committed to supporting these initiatives by providing innovative formwork and safety solutions to help you create a safer work environment. Let us partner with you to enhance safety practices and ensure a successful Safety Week at your job sites.

What We're Offering:

→ Complimentary Jobsite Safety Demonstrations

Our Doka team provides hands-on demonstrations at your jobsite or office, showcasing the built-in safety of our innovative systems—including wall and slab solutions, perimeter and edge protection, stair towers & access, debris containment, and more.

Let's Build Safer Together

Whether you're planning a safety meeting or an on-site event, our Doka team is ready to support your initiatives with hands-on education and proven safety solutions designed to keep your crews safe.

To book us for your Safety Week Event:

Contact your local **Doka Account Manager** to schedule a visit or training session.
